We have found that this survey can be completed most efficiently and easily in bite-sized pieces.
Here is an example:

DAY 1: Spend 10-15 min. collecting 3 samples of each item from various departments.
List them on the Survey Sheet.

DAY 2: Estimate annual usage on each item listed. Add any items not listed below.

DAY 3: Pull most recent invoice from current supplier on all printed products.
Determine price and previous order quantity.

DAY 4: Finish up and mail package to:

CTA PRINTING CO-OP P.O. BOX 2439, CHINO, CA 91708-2439

This survey should take a minimum of time, but you will receive maximum benefits.
